## Time Estimate By Area Packing & Unpacking

Providing an estimate can be challenging when packing and unpacking because of the unforeseen things. This packing and unpacking breakdown is based on a decluttered spaces. Areas with items stacked from floor to ceiling will generally take twice as long as the estimates below. See our Time Estimate By Area Pro Organizing pdf for decluttering and organizing times.

If our team packs the boxes, the unpacking times are listed below. If our does not pack the boxes and are only hired to unpack the times can possibly increase.

However, for peace of mind and budget planning, here's a breakdown of the typical time it takes to pack a space that has been previously decluttered.

Please note, that though we offer these services our estimates do not include additional task such as shelving installation, applying drawer liners, hanging pictures and décor etc.

Packing Supplies: \$250 – \$500
