## Time Estimate By Area Home Organizing

Providing an estimate is challenging because the process of decluttering heavily relies on the client. The rate at which decluttering and organizing occurs depends primarily on your readiness to make decisions and flexibility with the organizing strategies we suggest. Additionally, the number of items within each specific area will affect the time required. Areas with an excessive amount of items stacked from floor to ceiling will generally take twice as long as the estimates below.

However, for peace of mind and budget planning, here's a breakdown of the typical time it takes to sort, purge and organize a typical amount of items related to each space. Please note, that though we offer these services our estimates do not include additional task such as shelving installation, applying drawer liners, hanging pictures and décor etc.

Average Organizing Supplies Budget: \$250 – \$750

- Bathroom 3 – 6 hrs
- Bedroom 6 – 10 hrs
- Closets
  - Master Closet 6 – 12 hrs
  - Kids Closet 2 – 4 hrs
